

### LISTEN:

- Kids love stories. They are not always interested in reading stories themselves. That's where audio books come in. So often parents only think of audio books as entertainment for long car trips, but audio books have so much more potential. They can inspire a love of books in kids too young to read. Audio stories can be downloaded easily or CD's can be purchased. This will build the attention span of children and will enhance their listening skill. They will be able to add new words to their vocabulary reservoir. Watch Discovery Channel and create a folder of the amazing facts.

### LEARN:

- All the "look" and "listen" activities have provided learning, but science takes both looking and listening to make that learning stick. So, carve a little time out of your workday for some science and math fun. Engage your child in age appropriate science experiments and math activities to trigger thinking skills and develop scientific bent of mind.
- Read the newspaper, write 5 new words each day, find their meanings and frame sentences using these words in a separate notebook.
- Learn tables 2-12
- Practice one page of handwriting daily.

### TAKE IT OUTSIDE

#### CHALK IT UP :

- Sidewalk chalk is a great investment. Its loads of fun, as kids create art on walkways. They can use chalk to make hopscotch, four square or tic-tac-toe game. Let them think of a game where maximum mental and physical energy is utilized and whole body is used to break the sedentary lifestyle.

#### GET WET:

- It's time to break the hose and get wet. Let them spray each other with the hose, set up the sprinkler, get a water tub, fill up a baby splash pool or even take them to a pool. Embrace the messiness and let them get wet.

### SNACKY DELIGHT

Make Something Good to Eat:

Plan non-fire cooking time with your child. Involve them in peeling, cutting fruits and vegetables, applying, mixing ingredients, sauté, etc. Let them enjoy, relish the dish prepared by them and feel proud of themselves.

Eat at least one meal with the child, explain them the importance of food, the hard work of the farmers in growing fruits and vegetables. Let them keep their plates in the sink after having food, involve them in washing vegetables, fruits, arranging utensils, etc. so that they understand the dignity of labour.

## CLEAN OUT THE CUPBOARD

Make children partners in cleaning around the house, laying their bed and their cupboards. Give them the freedom to choose the material needed and material to be discarded. This will strengthen their decision making and reasoning skills.

## FANTASY PLAY TIME

'Let your imagination run wild, be Creative' Give them the opportunity to create their dream world using old cardboard boxes, utensils, dolls, old sarees, dupattas, old toys, etc. Allow them to weave a story, dress up according to the character, imitate elders, be a witness to their creation and enjoy their creativity. This will ignite the child's creative and aesthetic sense.

## CREATE

Create a photo album or PowerPoint Presentation of the special moments spent in the holidays with family, friends and loved ones celebrating festivals/spending time with grandparents/visits to new places. Click pictures while exploring, experimenting and enjoying different activities and make memories for lifetime. Create your own inspirational wall(A3 size sheets) and express feelings on 'My Role Model in Life' (Refer to page numbers 98-99 of My Pedia Reader (Book 2)

### **Please Note:**

- **Holidays Homework for each subject should be done on A4 size sheets.**
- **It should be submitted in a separate folder duly labelled for each subject.**
- **The last date for submitting the holidays homework is July 6, 2018**

Let children be active learners and achievers. Appreciate and encourage them in their every small step. Often all big feats are achieved by taking small steps.

Wishing you joyous and splendid time together!

Warm Regards

Class Teacher

## Class III

### English

- Read the poem 'Thank you Mom!' given on page 32.
- Write a paragraph about all that you did for your mother on Mother's Day.
- Critical Thinking Prompt (page number 35)- Is there any way to repay mothers for what they do for us? How? Why do you think a child shares a special bond with his mother?

### हिंदी

पंचतंत्र की कोई पाँच कहानियाँ पढ़ो और उनसे मिलने वाली शिक्षा को अपने शब्दों में लिखो। उन कहानियों में से 20 संज्ञा शब्द छाँट कर वाक्य बनाओ ।

### Math

- Roll a dice 4 times each and frame five 4-digit numbers
- Fill the table given below using the six numbers that you have framed

S.No	Number	Number Name	Expanded Form	Place value of each digit	Successor	Predecessor
1						
2						
3						
4						
5						

## Science

- Read the story given on page number 16 -The Cold War
- Pick 10 new words, use a dictionary to find and write their meanings
- Play a game with your sibling/cousin/friend- Blindfold him/her and give different things to touch, smell, taste and ask him/ her to identify and vice versa.
- **Critical Thinking Prompt:** Imagine that you met a hearing and speech impaired (deaf & dumb) person on your way to school. He was standing at a corner of a street. He was trying to explain something but you could not understand him.
  - Which language such people use to express themselves? Explain with definition.
  - Learn atleast 10 gestures (hand and arm movements) to communicate with such people.

## Social Science

- Visit any famous historical monument in Delhi. Also carry a notepad to record your observation.
  - Click beautiful pictures and make a photo frame/photo collage on A4 size sheet.
  - Mention the description of the monument.
  - Being a citizen of India which monument would you like to adopt and why?
  - What will you do to preserve it?
