

### Dear Parents

Summer Holidays are back again. It's the time of the year when children can have fun, relax and enjoy leisure time. The special bond between parents and children is strengthened at this time as you can spend quality time by being an active participant in all their playful acts and games. Working together on the activities will help children build confidence, learn to reason and develop skills necessary for his/her education.

Following tips can aid you in having a dynamic, creative and enjoyable summer vacation. It is not mandatory to do the given activities. Kindly do it as per your convenience.

### **SUMMER SMART LIST**

- Take a little time early in the summer to map out some of the routine/activities during the summer break, e.g., day trips, picnics, family events, camping, the beach, amusement parks...whatever is on your summer smart list. Click and paste pictures and keep making memories for life

### **KIDS SWAP**

- Kids are social beings. At school, they are constantly interacting with other kids. Peer learning is a great way through which children can benefit. So, kids can visit their friend's house once or twice a week and play under the supervision of his/her mother and similarly their friends can visit your house. Parents will get to know a lot about their child's areas of interest and this will also strengthen the bond between them.

### **LOOK, LISTEN AND LEARN**

#### **LOOK:**

Watch family movies together. Enjoy relishing a bucket full of popcorn, a healthy drink and let them stroll down memory lane for an afternoon.

## LISTEN:

- Kids love stories. They are not always interested in reading stories themselves. That's where audio books come in. So often parents only think of audio books as entertainment for long car trips, but audio books have so much more potential. They can inspire a love of books in kids too young to read. Audio stories can be downloaded easily or CD's can be purchased. This will build the attention span of children and will enhance their listening skill. They will be able to add new words to their vocabulary reservoir. Watch Discovery Channel and create a folder of the amazing facts.

## LEARN:

- All the "look" and "listen" activities have provided learning, but science takes both looking and listening to make that learning stick. So, carve a little time out of your workday for some science and math fun. Engage your child in age appropriate science experiments and math activities to trigger thinking skills and develop scientific bent of mind.
- Read the newspaper, write 5 new words each day, find their meanings and frame sentences using these words in a separate notebook.
- Learn tables 2-20
- Practice one page of handwriting daily.

## TAKE IT OUTSIDE

### CHALK IT UP :

- Sidewalk chalk is a great investment. Its loads of fun, as kids create art on walkways. They can use chalk to make hopscotch, four square or tic-tac-toe game. Let them think of a game where maximum mental and physical energy is utilized and whole body is used to break the sedentary lifestyle.

### GET WET:

- It's time to break the hose and get wet. Let them spray each other with the hose, set up the sprinkler, get a water tub, fill up a baby splash pool or even take them to a pool. Embrace the messiness and let them get wet.

## SNACKY DELIGHT

Make Something Good to Eat:

Plan non-fire cooking time with your child. Involve them in peeling, cutting fruits and vegetables, applying, mixing ingredients, sauté, etc. Let them enjoy, relish the dish prepared by them and feel proud of themselves.

Eat at least one meal with the child, explain them the importance of food, the hard work of the farmers in growing fruits and vegetables. Let them keep their plates in the sink after having food, involve them in washing vegetables, fruits, arranging utensils, etc. so that they understand the dignity of labour.

## CLEAN OUT THE CUPBOARD

Make children partners in cleaning around the house, laying their bed and their cupboards. Give them the freedom to choose the material needed and material to be discarded. This will strengthen their decision making and reasoning skills.

## FANTASY PLAY TIME

'Let your imagination run wild, be Creative' Give them the opportunity to create their dream world using old cardboard boxes, utensils, dolls, old sarees, dupattas, old toys, etc. Allow them to weave a story, dress up according to the character, imitate elders, be a witness to their creation and enjoy their creativity. This will ignite the child's creative and aesthetic sense.

## CREATE

Create a photo album or PowerPoint Presentation of the special moments spent in the holidays with family, friends and loved ones celebrating festivals/spending time with grandparents/visits to new places. Click pictures while exploring, experimenting and enjoying different activities and make memories for lifetime. Create your own inspirational wall(A3 size sheets) and express feelings on 'My Role Model in Life' (Refer to page numbers 98-99 of My Pedia Reader (Book 2)

I can do my homework myself.  
I know I am Special and  
can do anything.

### **Please Note:**

- **Holidays Homework for each subject should be done on A4 size sheets.**
- **It should be submitted in a separate folder duly labelled for each subject.**
- **The last date for submitting the holidays homework is July 6, 2018**

Let children be active learners and achievers. Appreciate and encourage them in their every small step. Often all big feats are achieved by taking small steps.

Wishing you joyous and splendid time together!

Warm Regards

Class Teacher

## English

- Read and recite the poem 'My Dream World' given on page number 48.
- Make Pictionary of 10 mythical creatures like fairies, dragons, giants etc.
- Use various mythical creatures and write a story of an imaginary dream world of your own. (refer page number 101 to110)

## हिंदी

- अगर आपको किसी दूसरे ग्रह पर जाने का मौका मिले तो आप वहाँ क्या परिवर्तन करोगे ? आप उस ग्रह के लोगों को पृथ्वी की कौन सी बातें सिखाओगे ? अपनी कल्पना को शब्दों द्वारा व्यक्त करो ।

## Math

Tippy Tippy Tap , which number you want ?

Rules of the game :

Player 1 has to cut out eight 6- digit numbers from the newspaper/magazine. Fold these and put them in a bowl.

Options

1. Pick 1<sup>st</sup> slip from the bowl write the number in expanded form.

3. Pick 3<sup>rd</sup> slip, write the place value of each digit in the number.
4. Pick 4<sup>th</sup> slip, write the number in words using international system of numeration.
5. Pick 5<sup>th</sup> slip, round off to nearest 1000.
6. Pick 6<sup>th</sup> slip, record the last 2 digit and rewrite using roman numerals.
7. Pick 7<sup>th</sup> slip, write the successor and predecessor showing calculation.
8. Use all the numbers recorded on different chits and arrange them in ascending /descending using symbol (>,<)

Record the solutions in the table given below:

S.No	Number	Solution
1		
2		
3		
4		
5		
6		
7		
8		

### Science

- Read 'A Colorful Story' given on page number 37
- Write sources and functions of different vitamins (A, B, C, D, E, K), minerals (iron, calcium) and diseases caused due to deficiency of them in the table given below:

Example: Vitamin A deficiency leads to Night Blindness

Sources – Carrot, Papaya

S.No	Name of the vitamin	Sources	Function	Disease
1	Vitamin A	carrot	Strengthen eye sight	Night blindness
2	Vitamin B			
3	Vitamin C			
4	Vitamin D			
5	Vitamin E			
6	Vitamin K			
7	Iron			
8	Calcium			

## **Social Science**

Read the story given on page number 53- Candy Rush. Make a poster (A3 size sheet) on capabilities of girl child. Write slogans on importance of freedom of speech & expression for girl child.
